

— YOUR ONE SOURCE FOR — **SLING REPAIRS**

OUR HIGHLY-TRAINED AND QUALIFIED PERSONNEL WILL HELP ENSURE THAT YOUR RIGGING AND PERSONNEL ARE SAFE. WE MAKE IT EASY FOR YOU TO COMPLY WITH OSHA STANDARDS!

FIELD INSPECTION

One of our certified inspectors will perform the inspection of your lifting slings.

PICK-UP

Our inspectors can often take the damaged slings with them or arrange for pick-up of the slings.

REPAIR AND RETURN

After receiving your approval, we will repair the slings and return them promptly.

REMEMBER OSHA'S SLING TAG REQUIREMENTS!

Basically, this revision prohibits the use of any sling that does not have a permanently affixed identification tag. We provide unique serial numbers on all our slings. We can inspect, test, and tag your slings that currently don't have any tags on them. We can also help you comply with this requirement for a fraction of the cost of new slings.

WE PROVIDE REPAIR SERVICES FOR SEVERAL TYPES OF LIFTING SLINGS, INCLUDING:

- Alloy chain slings
- Metal mesh slings
- Single-path roundslings
- High-performance roundslings
- Synthetic rope slings

ALLOY CHAIN SLINGS

METAL MESH SLINGS

SINGLE-PATH ROUNDSLINGS

HIGH-PERFORMANCE ROUNDSLINGS

SYNTHETIC ROPE SLINGS
