- 4

Upon arrival, harnesses and/or web slings will go through a detailed visual inspection at an authorized Mazzella facility.

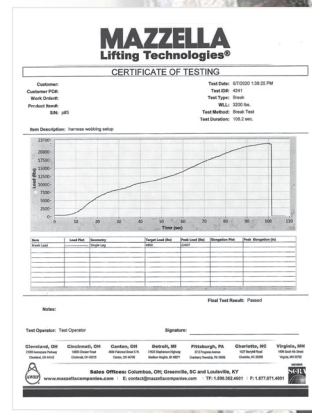

Once items pass inspection, Mazzella's disinfection team will begin to attack and destroy germs and viruses.

- Active ingredients in our cleaning and disinfecting compounds have been laboratory tested and proven to eliminate 99.999% of all pathogenic bacteria and viruses.
- Dirt is demolished and odors are removed!
- Test results prove that the disinfectant has no effect on the integrity of the webbing material.

After disinfecting, all items will again go through another visual inspection.

Once passing this final inspection, they will be individually bagged, tagged and promptly shipped back to you.

**PLEASE NOTE:**  
A MINIMUM OF 25 PIECES IS REQUIRED.

**BEFORE**
