MAZZELLA Companies®

Overhead Cranes

We are a leading manufacturer of world-class overhead cranes with over 50 years of experience. We engineer and build custom solutions ranging from light-duty economical cranes up to large capacity high-duty cycle cranes with welded plate-box girders.

We have on-staff engineering and computer-aided design (SolidWorks) capabilities to build customized indoor cranes and runway systems to a lifting capacity in excess of 150 tons. Our work is done in full compliance with CMAA, NEC, OSHA and ASME standards.

We have extensive electrical / control engineering capabilities, as well as, AWS certified welders (AWS D1.1 and D14.1).

OVERHEAD CRANES

JIB CRANES

Lifting & Rigging Services

Crane Inspections

We provide crane inspections, field crane inspections, lifting inspections and hoist inspections.

Sling Inspections

We provide sling inspections, required OSHA inspections, wire rope inspections, rigging inspections and proof tests. We also employ more than 45 certified inspectors.

Crane Repair

Our services include scheduled preventative overhead crane maintenance, emergency overhead crane repair, authorized warranty repair, installation (entire overhead crane systems and spare parts) and crane modernization / modifications / upgrades.

Modernizations

Older cranes can be improved to a higher level of productivity with crane radios, controls and variable frequency drives.

Sling Repair

We can repair many types of slings, such as alloy chain slings, wire rope bridles, Twin-Path® slings and bridles and various synthetic web slings with hardware.

Block Repair

We repair and rebuild all manufacturers' blocks. A complete tear down, inspection and evaluation of all components is performed.

Retractable Repair

We are an authorized repair center for retractable lifelines. We can take your old retractables and make them look new.

MAZZELLA Companies®

Engineered Products

More than 60 years of field application experience and in-house manufacturing has earned Mazzella the reputation as a leader in the design and development of custom engineered below-the-hook lifting devices and lifting attachments for use with all types of cranes.

Our participation on the ASME B30.20 Subcommittee (that governs manufacturing, inspection, marking, testing, maintenance and operation of the below-the-hook lifting devices) sets us apart from our competition. On-staff engineering and our commitment to ISO 9001: 2008 guides Mazzella to continued success in quality products and processes.

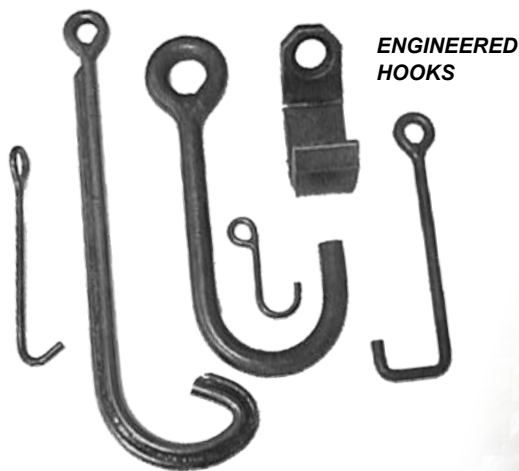

Our products range from a common lift beam, to an engineered special 150 lb. engine line lifter, to a 330 ton electric furnace lifter.

Slings & Assemblies

The Mazzella name is synonymous with quality slings—from the customer preferred Mazzella 7-Part™ wire rope sling to one of the world's largest synthetic Twin-Path® high-performance slings, we can manufacture the right sling to meet your needs.

Mazzella's quality slings include chain, wire rope, nylon, polyester, cordage and high-performance synthetic slings. We also provide wire rope assemblies—both large and small. We manufacture bridge cables, crane cables, steel mill cables and thousands of OEM assemblies. We can also manufacture assemblies with standard or custom end fittings. Special testing and tolerance requirements are also available.

One of the World's Largest and Longest Synthetic Slings Ever Made!

- 125 feet in length x 14 inches wide
- Ultimate strength (break)—over 1,700,000 lbs.
- Working Load Limit—340,000 @ 5-to-1
- Sling weight—850 lbs.

Training

Whether your operators require a specific training course for OSHA compliance for cranes, slings, hoists and rigging hardware, or if your company requires a complete site assessment, Mazzella can assist you in creating a safe and reliable workplace.

Crane Training

Mazzella has been providing safety education for more than half a century, and our collective knowledge across the wide range of products we sell makes us unique in the training environment.

Slings, Hoists & Rigging Training

All Mazzella slings, hoists and rigging trainers have been accredited through Industrial Training International, Inc. We train to OSHA and ASME standards and can issue certificates following program completion.

Site Assessment

The purpose of a site assessment is to systematically observe and record your lifting and/or rigging equipment, as well as your procedures and records. This is not an inspection, but rather a general site assessment, by which opportunities or improvements may be identified. The assessment covers training, maintenance, purchasing / inventory, and application / facility review.

Mazzella employs three "Top Trainer" award winners.

Conveyor Systems

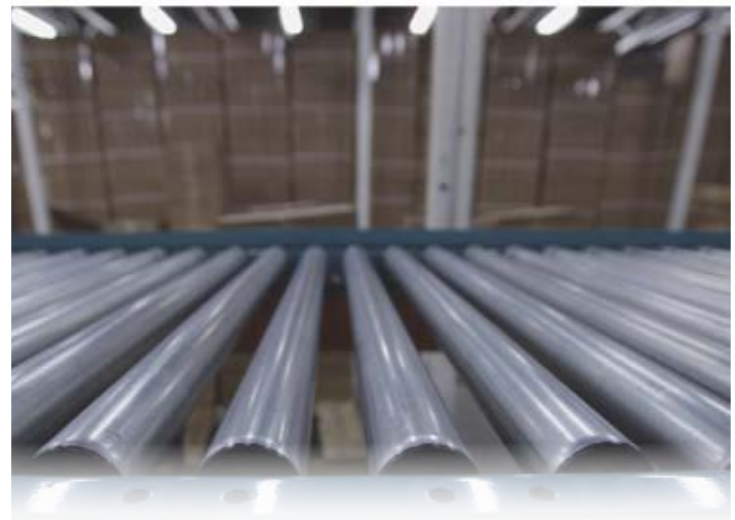

We provide turnkey system integrations for the warehouse, distribution and manufacturing industries. We offer pallet handling and pallet sortation systems, AS/RS (Automated Storage & Retrieval Systems) including horizontal / vertical carousels and vertical lift modules and powered and power & free overhead conveyor systems for the manufacturing industry.

Custom Racking

We provide storage solutions for projects of any size and complexity. Our team of qualified engineers and project managers specialize in developing solutions based on the type of product to be stored, the environment, and the function of the system. **Our solutions include:**

- Cantilever racks
- Selective pallet racks
- Pushback pallet racks
- Pallet flow racks
- Drive-in pallet racks
- Mezzanine systems

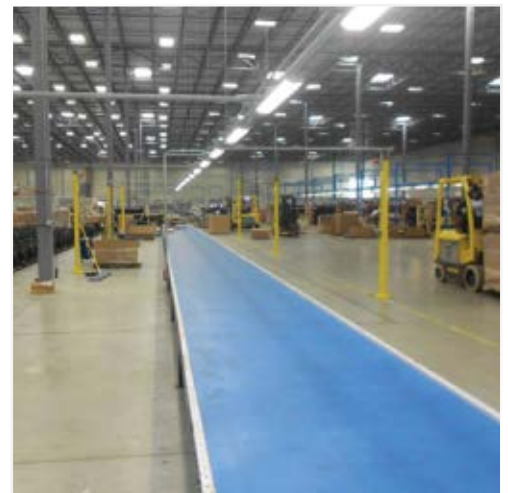

Industrial LED Lighting

We are proud to offer EcoZohm lighting products. EcoZohm's MaxGreen Brand is leading the way in industrial and commercial LED lighting solutions. MaxGreen manufactures the highest quality, energy-efficient, and environmentally-friendly LED products on the market. Allow us to help you build a more sustainable tomorrow.

Fall Protection Systems

We are a leading supplier and installer of engineered fall protection systems, as well as mobile fall protection solutions. All of our engineered fall protection systems meet or exceed OSHA and ANSI requirements and will be customized with your individual fall protection and financial needs in mind.

Personal Fall Protection Products

We provide personal fall protection products and soft goods, such as harnesses, lanyards, self-retracting lifelines, scaffolding, and netting. All of our fall protection products meet or exceed OSHA and ANSI requirements.

Material Handling & Storage

We provide a wide array of material handling and storage products, such as:

- Air curtains / matting
- Bins / totes / racks
- Casters / wheels
- Dock boards / ramps
- Dollies / carts
- Storage cabinets
- Shelving / containers
- Scales
- Forklift accessories
- Guardrails
- Doors / gates / barriers
- Reels
- Lift tables
- Lockers
- Pegboard
- Platforms
- Tilt trucks / lifts
- Safety ladders / mirrors
- Hoppers
- Containment products
- And more!

Sheffield Metals International

A MAZZELLA COMPANY

Metal Roofing Products & Accessories

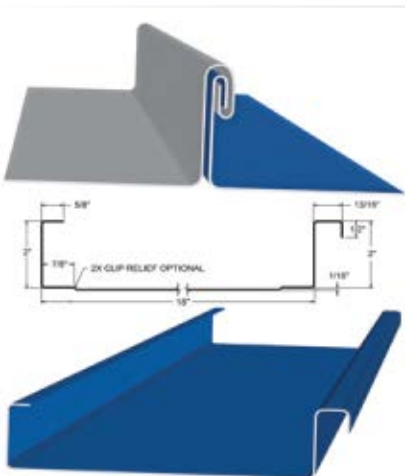

Sheffield Metals International (SMI) is a leader in the distribution of coated and bare metal products and Engineered Standing Seam Metal Roof (SSMR) Systems. We specialize in providing painted Galvalume® and aluminum for the architecturally driven metal panel industry.

SMI Provides ...

- More than 50 colors continuously stocked in Galvalume® and several popular colors in aluminum sheet and coil.
- Color matching for virtually any custom color.
- Zinc (elZinc®) and copper coil and sheet products.
- Value-added services: slitting, cut-to-length, applying strippable PVC and re-rolling.
- Service to the entire geographic United States including Alaska, Hawaii and the Caribbean. SMI operates out of five strategic locations to expedite the shipping of products throughout the country.
- Products that meet Energy Star or LEED requirements.
- Galvalume® and aluminum products for LEED sustainability and beyond.
- Full-time, in-house Technical and Architectural Departments.
- Transferable 40-year PVDF paint, 40-year SMP and optional 5- to 35-year weathertight warranties.

New Tech Machinery
A MAZZELLA COMPANY

Portable Rollforming Machines & Equipment

New Tech Machinery (NTM) has helped contractors worldwide gain more control of their projects and profits by manufacturing the world's finest portable rollforming machines. Our seamless gutter machines, metal roof panel machines and specialty equipment have revolutionized the metal construction industry by bringing versatile, easy-to-use rollforming products right to the job site.

NTM Product Line:

- Roof Panel Machines:
 - SSQ II™ MultiPro Roof Panel Machine
 - SSH™ MultiPro Roof Panel Machine
 - SSR™ MultiPro Jr. Roof Panel Machine
 - 5VC-5V CRIMP™ Roof Panel Machine
- Wall Panel Machines:
 - WAV™ Wall Panel Machine
- Gutter Machines:
 - MACH II™ Gutter Machines
 - BG7™ Box Gutter Machine
- Specialty Machines:
 - TPM™ Tapered Panel Machine
 - TSM™ Tapered Slitter Machine

INSTILLING CONFIDENCE AND COMFORT IN EVERY INTERACTION. YOUR ONE SOURCE FOR LIFTING, RIGGING, WAREHOUSE, AND METAL ROOFING SOLUTIONS.

Mazzella Companies employs over 800 individuals in more than 30 locations across North America. Mazzella is one of the largest independently-owned companies in the overhead lifting and rigging industries and is a manufacturer and distributor of a wide range of lifting products for industrial, commercial and specialty applications.

In addition, we are a leading manufacturer of world-class overhead cranes, specialty machinery, material handling, and warehouse solutions. We are also a leader in providing overhead crane and hoist services. Some of the major markets we serve are: Steel, Construction, Energy, Vehicle and Durable Goods, Shipbuilding / Repair and Mining.

Our diverse portfolio also includes Sheffield Metals, a manufacturer and distributor of coated bare metal products for engineered metal roof and wall systems, and New Tech Machinery, a manufacturer of portable roof panel, wall panel, and gutter machines.
